## **Chapter1: Summary**

### **1.1 Features**

#### **1.1.1 Advantages**

- Providing multi-language environment so it can be used in different countries and regions.
- The main unit system uses ARM high-speed chip to keep it running fast, stable, and anti-jamming.
- Modern design and high-definition true color screen realize the integration of automotive industry and electronic information technologies and make auto key programming easier, practical and economical.

#### **1.1.2 Durability**

- Integrity structure design makes it crack resistance, shock resistance and durable .
- Industrial design ensures the tool work stably under tough environment, as high and low temperatures.

## 1.2 Introduction of the device

### 12.1 The introduction of the main unit

Number	Name	Instruction
①	Display Screen	Show information
②	Charging Interface	Connect with the charger
③	TF card slot	TF card storage
④	USB Interface	Connect with USB cable
⑤	Up	Up
⑥	F2	Keyboard input option key
⑦	F1	Keyboard input option key
⑧	Right	To right
⑨	Left	To left
⑩	Down	Down
⑪	ESC	Exit or give up
⑫	OK	OK
⑬	Testing cable port	Connect to the main test cable

### 1.2.2 Introduction of accessories

OBD 16 pin testing lead (Connect to car diagnostic socket)

(USB Cable)

### 1.3 Hardware technical specification

- Dimension: 202mm\*106mm\*31.6mm
- CPU: ARM CORTEX M3
- Power Supply:DC12V
- Operation Power:DC12V
- Operation Temperature: -10~60℃
- Display Screen: 320×240 TFT

### 1.4 Functions Setting

Power on, and then press ENTER on the screen, then enter VEHICLES, shown as below:

### 1.4.1 Vehicles

Press OK to confirm, The diagram below.

Press OK to confirm the entry. The diagram below:

ition software

METRIC/INCH	
>METRIC	
INCH	

[ENT] [ESC] ▼ [1/2]

#### 1.4.2.4 Data Logging

Optional to close or open

#### 1.4.3 System Information

The system information includes the product serial number, the hardware version, the software version, release date, registration password.

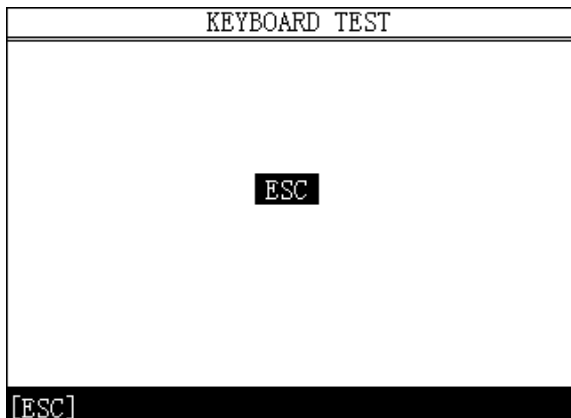

#### 1.4.4 Device Self-test

Liquid crystal self-check or keyboard self-check can be selected.

##### 1.4.4.1 Keyboard self-inspection

The machine self-check includes LCD display, keyboard test, such as the lack of the display screen, keyboard malfunction, please send K100 to the manufacturer for maintenance

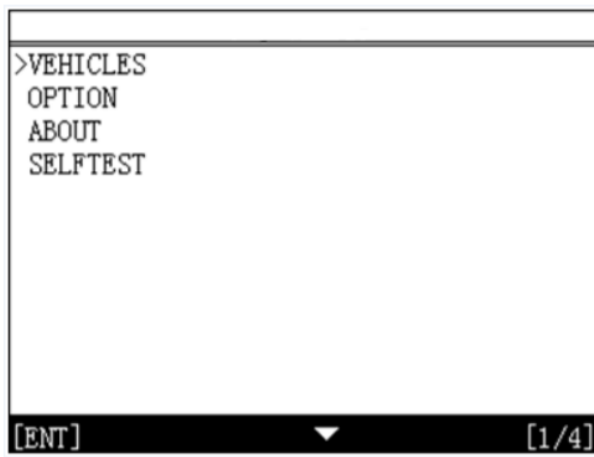

## Chapter 2: How to register & update software for K100

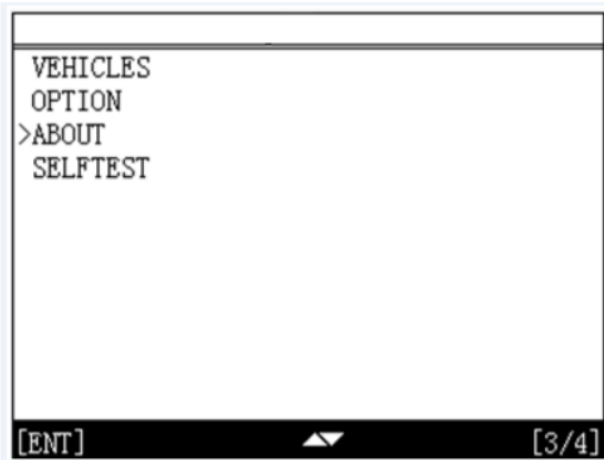

### 2.1 Install the update tool

### 2.2 Register

**Step 1:** Power on the device and you will see the following messages.

**Step 2:** Enter the Menu: About**Step 3:** Get the S/N and the Register PASSWORD:**Step 4:** enter Upgrade tool and start registration:

Click "Sign up" to fill in user information. Username can be English characters or the combination of alphabet and numbers.

Serial number and register password can be referred to System information in the device.
